Figure 5

FIG. 6 is a schematic diagram of a system 600 for measuring a change in angle $\Delta\theta$ of a beam 620. The system 600 includes a beam 620, a detector 610, a light source 630, a lens 640, and a sensor 650. The beam 620 is directed towards the detector 610. The light source 630 is directed towards the lens 640. The lens 640 is directed towards the sensor 650. The sensor 650 is directed towards the beam 620. The change in angle $\Delta\theta$ is measured between the beam 620 and the sensor 650.
